Possible colour deviations may be caused by the printing process. Other colours and surfaces are available upon request.

Fully vitrified tiles made in Germany. Argelith offers heavy-duty floor ceramics with over 150 years of experience in the production of ceramic products. Our fully vitrified tiles stand for safety, quality and durability. They are acid- and alkali resistant, hygienic and they last for decades even under the highest loads. With continuous quality checks, modern production facilities and high-quality raw materials, we offer outstanding quality. Our quick turnaround, spacious storage areas and just-in-time logistics ensure smooth worldwide delivery.
